Has Brenton answered his debate question yet?

The debate will be simple and can be in writing. Here is the question and I will even answer first:

Question: Is a zoning usage change a text change or a regulation change.

Sewell: A zoning usage change is a regulation change because State Statute 211.003(5) and State Statute 211.005 defines it as such. Logic says so also.

Lewis: A zoning usage change is a text change because _____.

If there is a tie or you are not convinced, you can ask the Texas Municipal League or the Attorney general, for free.

Even if you don't show me Brenton's answer, it wouldn't hurt for you to know what he says. This simple question/answer could end this.

Marc

Not yet but will. Do you have any thoughts about some sort of debate instead of the judicial review?

Thanks, Marc
